#### **DETAILED ACTION**

1. This communication is in response to the decision of the Board of Patents

Appeals dated 10/28/03. Claims 1-28, 30-51, and 53-83 are pending in this application.

## Allowable Subject Matter

- 2. Claims 1-28, 30-51, and 53-83 are allowed for the reasons stated herein below.
- 3. The prior art of record (Zarmer et al. US Pat. No. 5,625,818) teaches importing and exporting a document and a document folder, (Fujisawa et al. US Pat. No. 5,628,003) teaches an image format, and (Malone et al. US Pat. No. 5,727,175) teaches a data field containing a name.

Even though, the prior art of record teaches importing and exporting a document, a document folder, an image format, and a data field containing a name, the prior art fails to teach storing the document in a memory location, attribute data being automatically extracted from the document and a data structure being generated for the document with the data structure containing attribute data in a standardized format regardless of the document type or document format thereby discussed on page 2 or the decision by the Board of Appeals dated 28 October 2003. For these reasons claims 1 and 51 are deemed to be allowable over the prior art of record, and claims 2-28, 30-50, and 53-83 are allowed by dependency.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
